History: The first meeting of the group was conducted in the 3rd floor, IAD conference room on 15 October 1965.

STATINTL

He said we would [REDACTED] of P&DS is the chairman and as such ^{he} outlined the aims of the group, would prepare the "Center" for the advent of multi-sensor intelligence gathering and exploitation. He said the only purpose of the first meeting was to point out the purpose of the group and to encourage investigation of anticipated needs and contributions that would be expected by the various components.

The guest speaker was Mr. Johnson of McDonnell Aircraft Corp. He explained the activities of his company in the field of multi-sensors. McDonnell builds the R4C aircraft and is quite deeply involved in the acquisition of multi-sensor imagery. Mr. Johnson also mentioned a 3 volume set of reference manuals that will be available in P&DS within a week. [REDACTED] of P&DS promised to provide a copy of ~~each~~ for TID.

STATINTL

The next meeting of the group is set for 29 October 1965/1000 hours in the P&DS conference room.
